I INSTRUCTIONS FOR INSTALLATION AND USE OF VDI DESKTOP

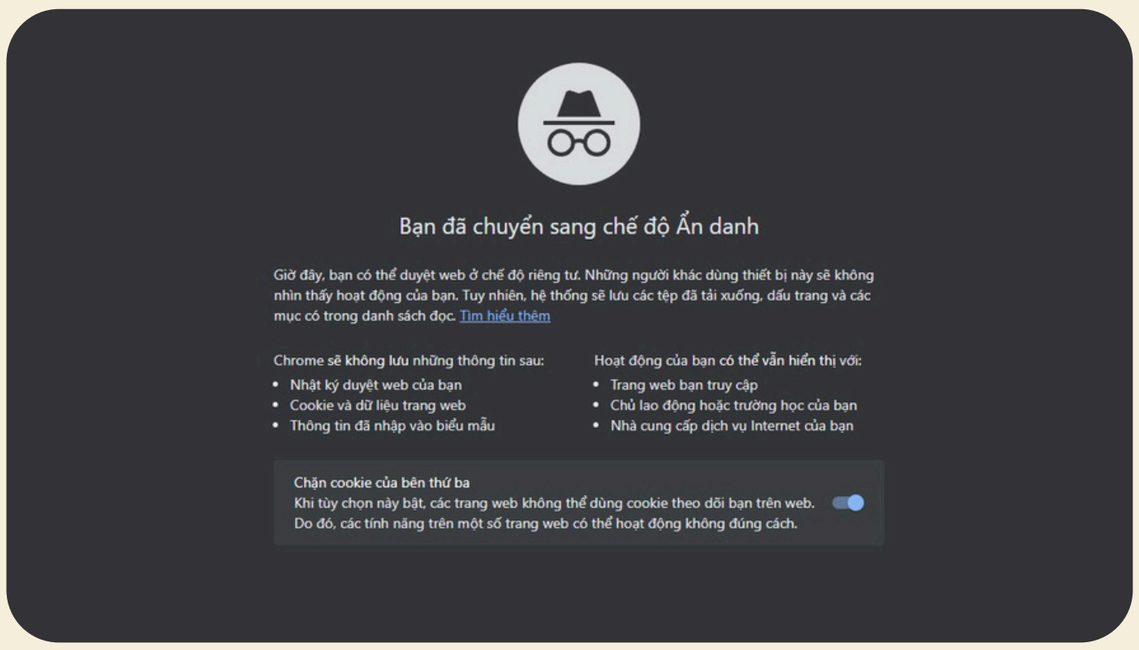
1. SETTING UP MFA AUTHENTICATION FOR VDI ACCESS

If you have already enabled MFA, please skip this step.

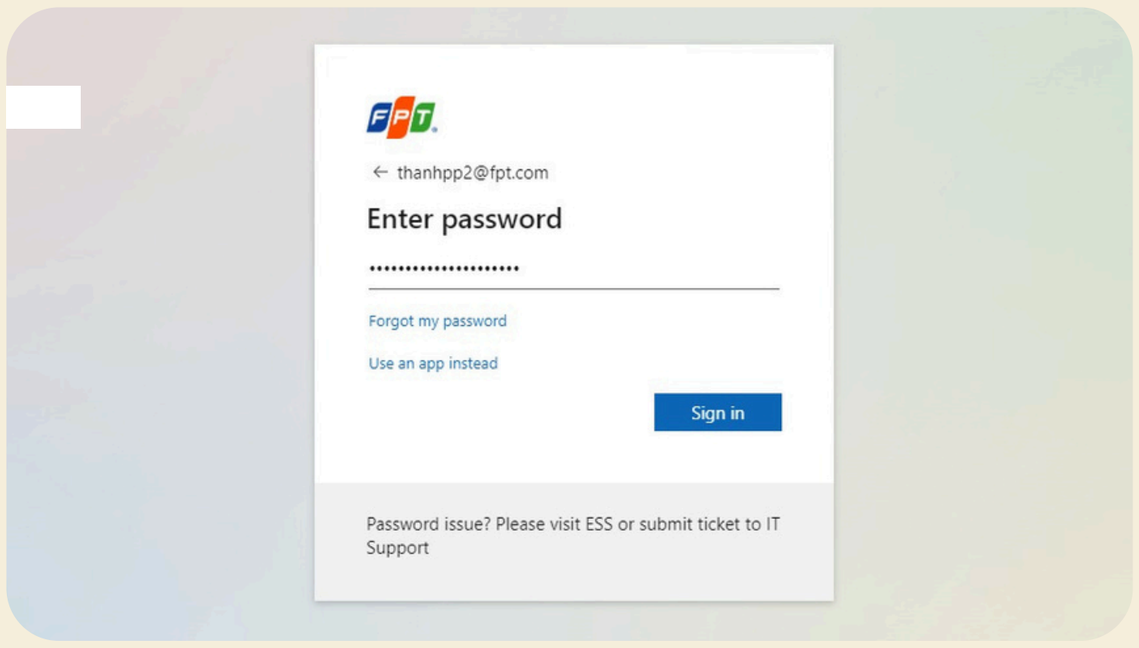
If you have not enabled MFA yet, please follow the instructions below to install and configure it.

Login to https://aka.ms/mfasetup using your personal FSoft account on any browser:

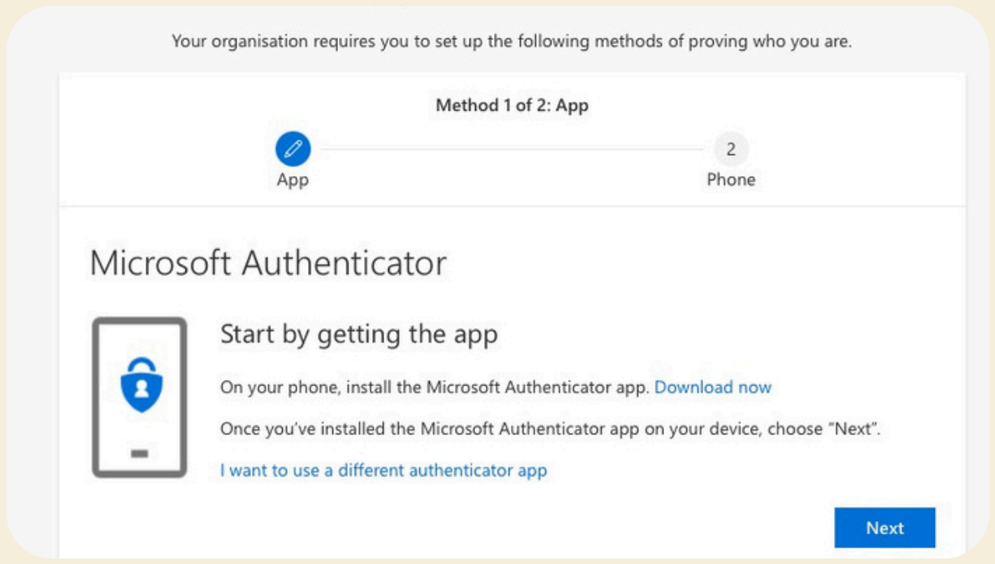
- Google Chrome
- Microsoft Edge
- Mozilla Firefox



Enter your personal FSOFTemail and password, then select "Sign in"



Once you sign in, the displayed page will provide information on **"Keep your account secure."** -> Click **"Next"** until the QR code appears



INSTRUCTIONS FOR INSTALLATION AND USE OF VDI DESKTOP

2. SETTING UP MFA AUTHENTICATION FOR VDI ACCESS

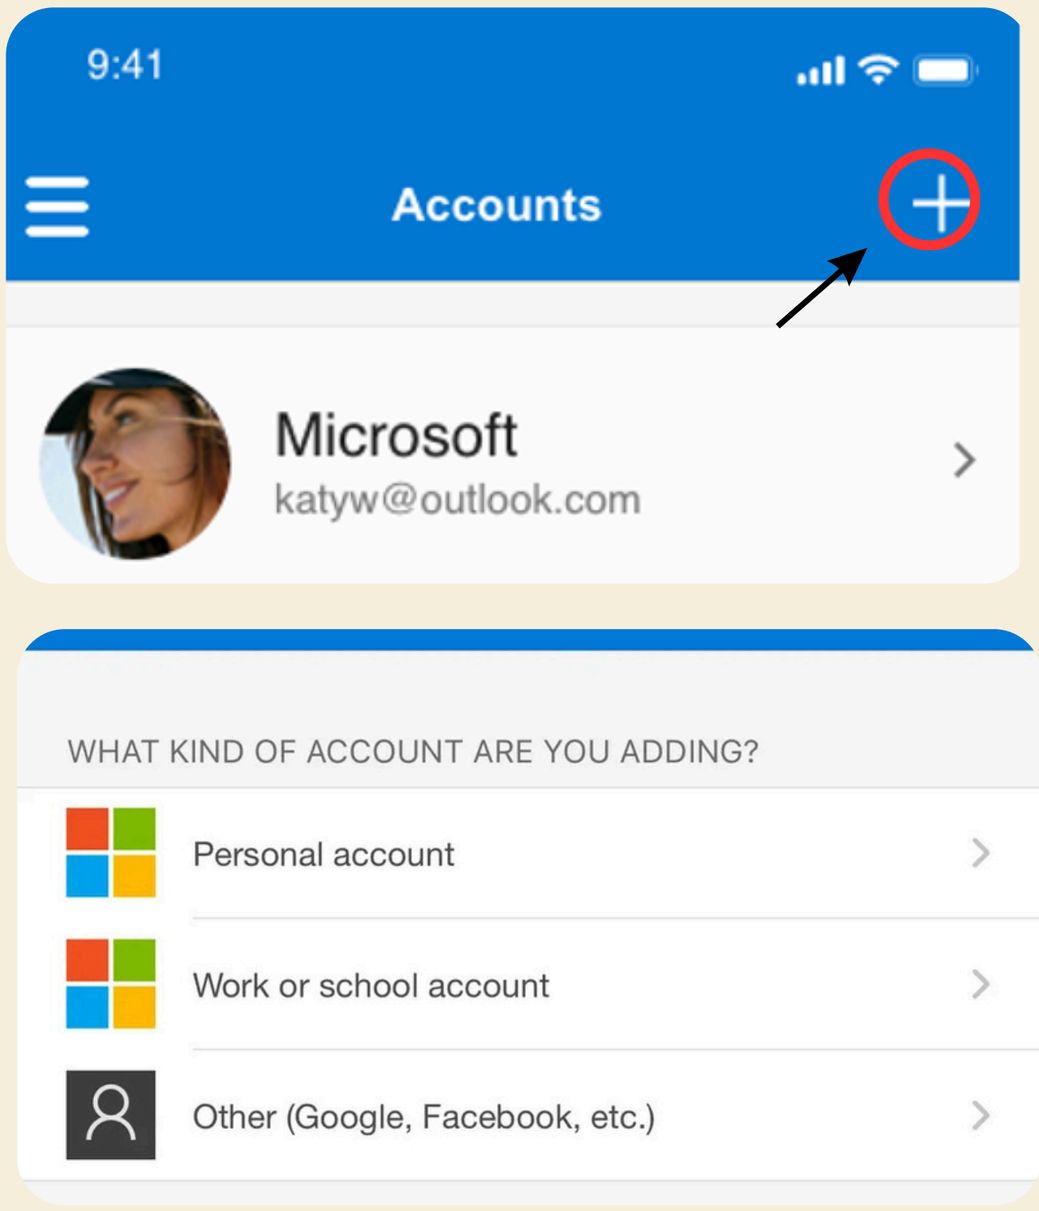
Using your phone, open Google Play Store (for Android) or the App Store (for Apple) and search for **Microsoft Authenticator.**

Download the app with the Microsoft Authenticator logo shown below

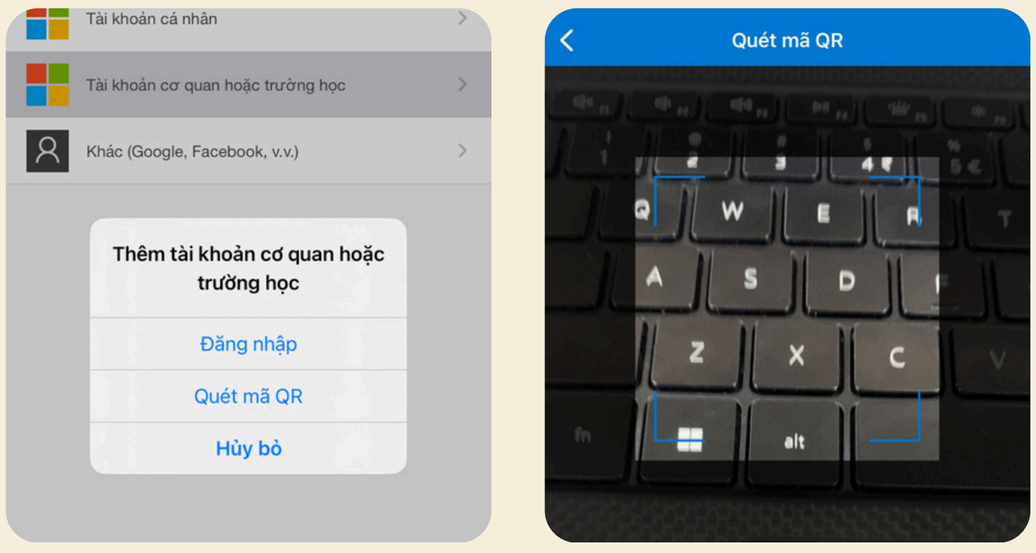
If you already have the app installed, ensure it is updated to the latest version

Open the application, then tap on the "+" sign located in the right corner of the screen.

Select "Work or school account"



Select "Scan QR code" and your phone will display the code scanning box. Then, use your phone to scan the QR code provided above

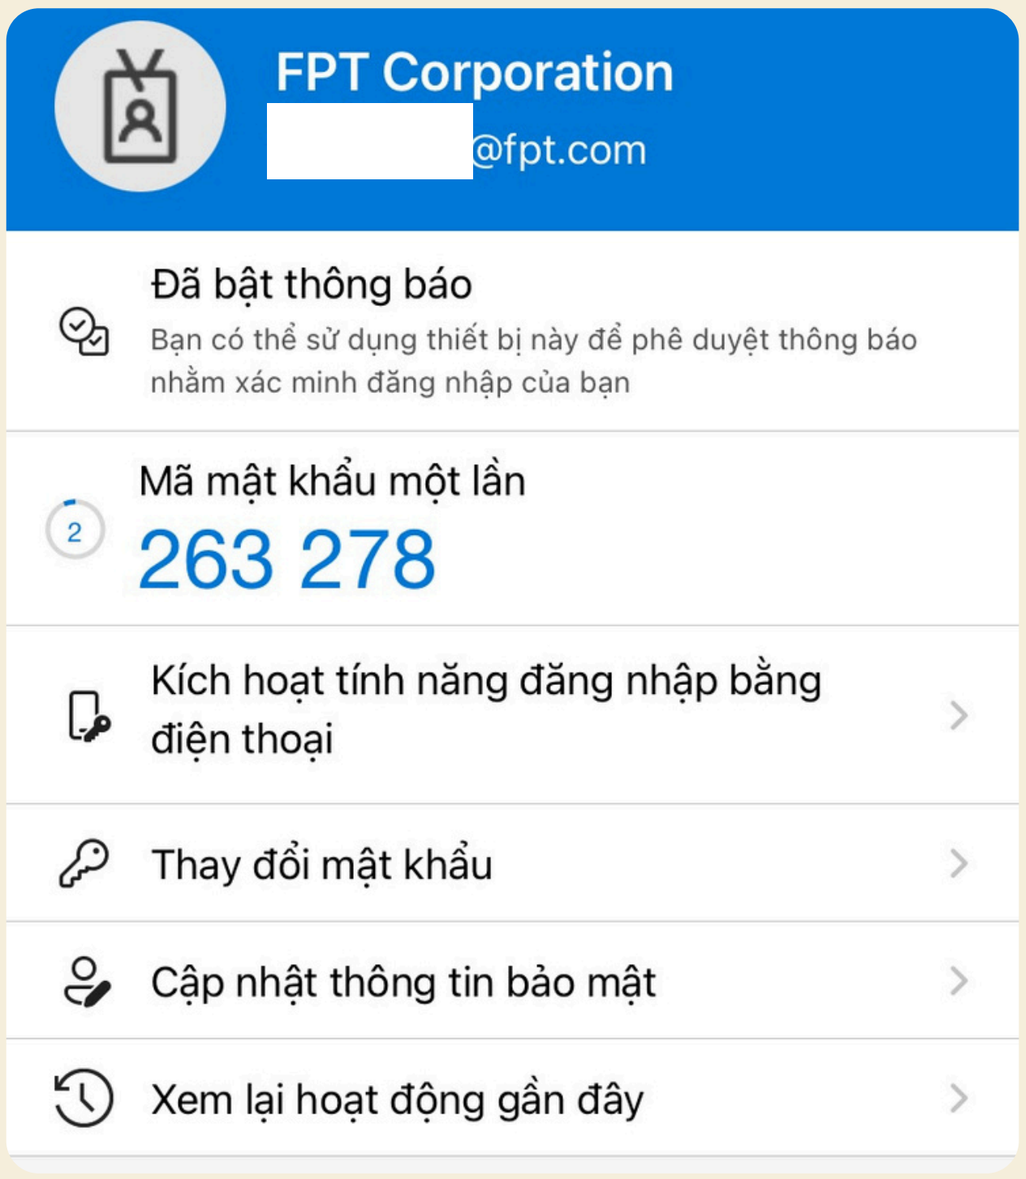


I INSTRUCTIONS FOR INSTALLATION AND USE OF VDI DESKTOP

3. SETTING UP MFA AUTHENTICATION FOR VDI ACCESS

On your mobile phone, a One-Time Passcode will appear. This step is completed. **Congratulations on successfully setting up MFA authentication!**

(The One-Time Passcode is the token used to access VDI.)



I INSTRUCTIONS FOR INSTALLATION AND USE OF VDI DESKTOP
